

# Framing / Ramme

At Bethien A/S, we have a large selection of Passepartout and mounting board materials for the framing industry. Our selections are the safe choices to set the frame of Danish and European art.

Through many years, we have developed the product Framex, which is our quality assortment tailored for the framing industry.

We also offer a foamboard line called Fine Foam which is a good choice for light weight applications.

We are the Nordic agent of the largest Passepartout producers in Europe, and we have the expertise to give the best guidance and service within the field of Framing.

*Hos Bethien A/S har vi et stort udvalg af passepartout og bag pap karton produkter til indramnings industrien. Vores udvalg er det sikre valg til at danne ramme om Danmarks og Europas store kunstværker.*

*Vi har igennem mange år udviklet produktet Framex, som er vores kvalitets sortiment indenfor karton produkter til indramningsindustrien.*

*Vi tilbyder også en linje af skumplader ved navn Fine Foam, som er et godt sortiment af letvægts applikationer.*

*Vi er Nordiske agenter for de største passepartout producenter i Europa og kan give den bedste vejledning, samt service omkring indramnings produkter.*

# Finefoam
